Please reject the NAB's petition 04-160. XM Radio provides an excellent service that many consumers like myself are willing to pay a premium to enjoy it. I do not believe that the NAB should have so much control over paid services that I CHOOSE.

One of the greatness of this country is free markets but the broadcasting environment is starting to resemble a monopoly.

In addition, living in Florida where the weather changes so drastically in a matter of minutes, having access to instant weather could be significantly life impacting.

Thank you in advance for your consideration on this matter.
